🧑‍🤝‍🧑 Task Detail!

Client: I'm a doctor based out of the US and running my clinic with 5 locations and 25 doctors. I want to build telehealth software.

As a Knovator, we need to analyze the whole requirement with market research and build easy solutions to handle their complicated processes.

We need to prepare detailed documentation on how to manage their patient intake, appointment scheduling, telemedicine, clinical notes & charts.

We need to make sure that all the details we mentioned will have references along with the benefits that the client will get.

📑 Scoring Criteria

It must be a layman's language.
